HAKKIMIZDA

SERT ÇELİK Pulluk Bıçakları San. ve Tic. Ltd. Şti. 1972 yılında kurulmuştur. 42 yıla yaklaşan Tercübesi ve başarısı ile çok çeşitli pulluk uç demirleri, kültüvator kaz ayakları uç demirlerini üretmiştir. Yıllardır olduğu gibi üretmiş olduğu kaliteli, sağlam ve garantili ürünlerini çiftçilerimize ve sanayicilerimize sunmaktayız.

Globalleşen dünyanın modernleşen Türkiye'sinden tüm çiftçilere on binlerce pulluk ile destek vermektedir. Büyüyen dünyada yaşamsal ihtiyaçların daha sağlıklı koşullarda arz edilebilmesinin, tarımsal alanın denge etkeni bozulmadan artırılması ve modern tarımın geliştirilmesi ile mümkün olduğunu bilmekteyiz.

Pulluk bıçaklarının uç kısımları dolgu olup aşınma ve çarpmalara karşı mukavemetli, özel alaşımlı imal edilmekte, ısıtım işlemi uygulanmaktadır. Pulluk bıçakları T.C. Tarım ve Köy İşleri Bakanlığı, Ziraat Fakültesi deney raporlu olup, emsallerinden üstün dayanma gücüne sahiptir. Yıllardır dünya çiftçisine verdiğimiz desteği, dünya markası olma arzusu yolunda yaptığımız çalışmalarla sürdürmeye devam edecek ve bu çalışmaları ulusal sorumluluğumuz olarak kabul edeceğiz.

COMPANY PROFILE

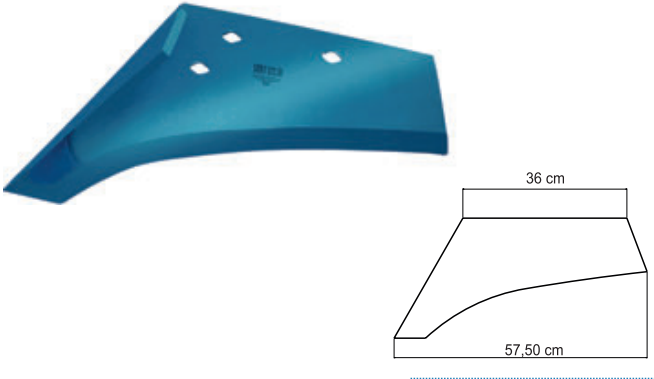

SERTCELİK Plowshares of ploughs LTD. was founded in 1972. The company have produced various ploughshares, cultivator goosefeet shares and mouldboards with an experience and success for almost 42 years. We provide qualified, steady and guaranteed products produced over years to our farmers and sellers.

The company supports all farmers with ten thousands of ploughs from developing Turkey of the globalizing world. We acknowledge that presenting the vital needs within healthier conditions in the growing world is possible to increase the agricultural fields without disrupting the balance and developing the modern agriculture.

Ends of the ploughshares are filled and they are produced as resistant to the impacts with a special alloy; and heat treatment is applied. Ploughshares have an experiment report from Faculty of Agriculture and T.R. Ministry of Agriculture and Rural Affairs and they have a superior resistance when compared with the equivalents. We will continue on supporting the farmers of the world with works on the way to be a world brand and accept such works as a national responsibility.
